Booth: 40

Neurocrine Biosciences is a neuroscience-focused biopharmaceutical company based in San Diego, CA, dedicated to relieving suffering for people with great needs. Our portfolio includes FDA-approved treatments across neurological and movement disorders, endocrine and rare diseases, and women's health—including tardive dyskinesia, chorea associated with Huntington's disease, classic congenital adrenal hyperplasia, hyperphagia in Prader-Willi syndrome, endometriosis, and uterine fibroids. In long-term care, Neurocrine's primary focus is tardive dyskinesia (TD), helping care teams improve awareness, monitoring, recognition, assessment, and appropriate treatment. This is especially important because older adults are at increased risk, TD frequently goes unrecognized, and its involuntary movements can affect residents' daily functioning and physical, social, and emotional well-being.

Shamrock Foods began in 1922 with a small dairy in Tucson, Arizona. One hundred years later, we're still family-owned, forward-thinking, and managed by the same principles of treating associates as family, and customers and suppliers as friends. And the values that brought us here are the same ones that will guide us into the future.

Today Shamrock Foods is a nationally-ranked, family-owned and -operated, Forbes 500 company and is the largest independent foodservice distributor in the West. Shamrock Foods serves restaurant, healthcare, hospitality and institutional foodservice customers throughout the Western US with six warehouses located in Arizona, Colorado, New Mexico, Southern California, Montana and Idaho. Shamrock Foods Company specializes in the manufacturing and distribution of quality food and food-related products through a family of companies, including Shamrock Farms – one of the largest family-owned and operated dairies nationwide.

Shamrock Foods offers a specialized management and healthcare sales team, including Registered Dietitians, Certified Dietary Managers, Registered Sanitarian, and Chefs, to ensure your success. From regulatory guidance to controlling costs, our mission is to drive resident and guest satisfaction. For a fresh approach to the unique needs and challenges of the healthcare industry, hospitals, long-term care and other institutional programs trust the dedicated, experienced healthcare team at Shamrock Foods. After all, we offer solutions for special dietary needs, nutritional analysis, compliance with regulations, menu cycling and more. We'll go far, together as one Shamrock

Introducing Top Notch Grips - a revolutionary solution to wheelchair management. Having worked in Skilled Nursing and Long-Term Care Facilities for over 20 years, our founder understands the challenges of handling portable oxygen tanks. With approximately 40% of nursing homes patients on oxygen, it's vital to address the issues caused by draping tanks over wheelchair handles. Falling backward or forward can damage the tank or cause discomfort for the patient. Additionally, tangled tubing and unsanitary dragging are common problems. Our patented design features a wide notch to secure straps and two small notches to neatly hold nasal cannulas. Wouldn't it be nice to avoid costly Infection Control citations at your facility? Experience peace of mind with Top Notch Grips.
